# INTERLOCKING RUBBER FLOOR TILES

with everroll® AktivLok

**everroll® AktivLok**  
Precision-fit Sports and  
Fitness Flooring

**Regupol**  
Australia

# Enduring the rigors, with interlocking style.

## Interlocking Rubber Floor Tiles

Interlocking recycled rubber tiles, designed to fit neatly together, with minimal seem visibility. Made of 80% post-consumer tyre rubber and 20% post-industrial EPDM rubber to the strictest environmental standard.

**everroll® AktivLok** helps to protect you and your sub floor from the impacts and stresses sustained while exercising. With or without equipment, you can be confident your rubber floor will support you.

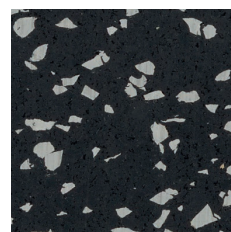

## Easy Installation

**everroll® AktivLok** can be loose-laid over almost any sub floor, without permanent bonding to the substrate. But make no mistake, **everroll® AktivLok** stays put until you're ready to remove or relay it.

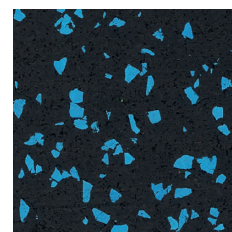

### Available Tile Styles
